# Dimensions Tool Report

**Report Generated On:** 28/09/2021 10:08

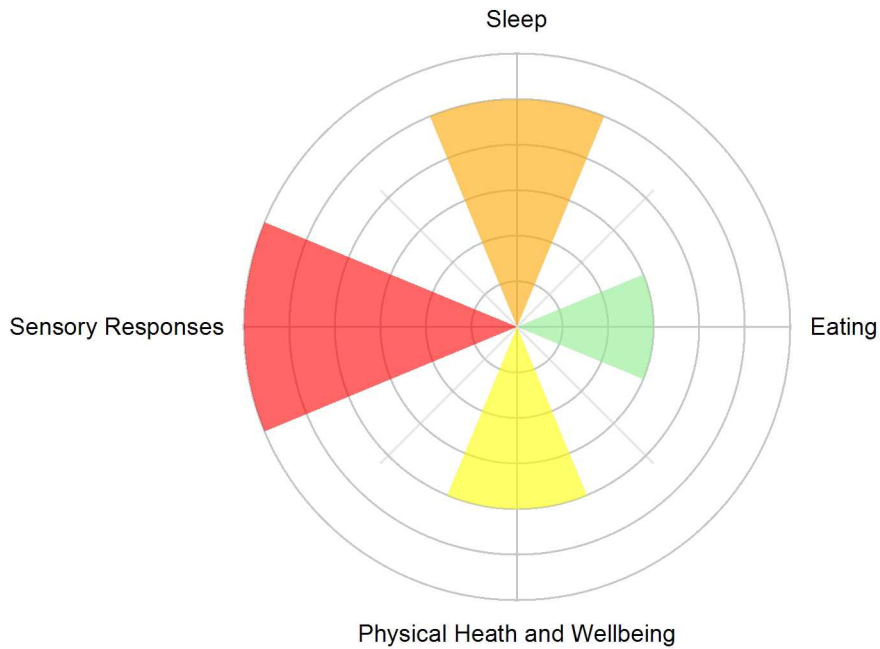

---

This report provides a summary of the ratings you have provided, showing this person's strengths and difficulties. To see the selfcare flyers, click on the links on the report. We recommend that you focus first on the areas showing orange or red on the charts because you rated those at 5 or 6. We also suggest that you talk to a professional about these, so they can make sure you are getting the help you need. That could be a support worker, a teacher/SENCO, a social worker, a health professional such as a GP.

**Remember to save or print your report if you want to look at it again.**

 [Connection with Others Levels 2-3 Adult Self-care](#)

If no flyers are presented, then it does not appear that this person has difficulties related to their health and well-being. However, if you have any concerns about this or the problems they have are not captured by Dimensions, it would be helpful to talk to a professional in education or health about your worries.
